**A DETAILED CHRONOLOGY**

This is more than a book on Gandhi. The 33 years documented here have a wider national relevance, since Gandhi was merely the centre-piece of an exciting and ever-changing mosaic. A work of years of research, its value as a tool for biographers and historians is undoubted. But it can be consulted with equal profit by everyone interested in Gandhi and the Indian struggle for Independence.

## PUBLISHERS' PREFACE

Although nearly a quarter of a century has passed since the death of Gandhi, it is only now that some of the basic tools necessary for the systematic study of his life, work and thought are becoming available. Of these, the *Collected Works of Mahatma Gandhi* naturally holds pride of place. The present volume, which for the first time brings within reach, both of the scholar and the layman, a systematic and detailed chronology of Gandhi's movements during the last 33 years of his life (1915-1948), is another invaluable tool of research. A third, for which we may have to wait some years, would be an analytical index to the *Collected Works*.

A correct perception of Gandhi, without which obviously a full appreciation and correct application of his ideas cannot take place, has hitherto been difficult, even to the most painstaking scholar, mainly because of the lack of such basic tools of research. It is our hope that the publication of this *Chronology* will in some way help to make the systematic study of Gandhi and the meaningful application of his ideas to present problems a reality.

The compiler of the volume, Shri C. B. Dalal has worked hard and for several years, and coming generations will be thankful to him for the pioneering work that he has done. Although the work is by no means faultless, it is unlikely that a further attempt will be made by anyone in the foreseeable future to supersede Shri Dalal's work. We are thus confident that this *Chronology* will remain for many years to come a basic tool of Gandhi research.

## INTRODUCTION

This book covers the period beginning from 9.1.1915, the day Gandhiji landed at Bombay after finally leaving South Africa, and ending on 30.1.1948, the day he was shot dead in Delhi.

The book is divided into six parts or sections: (1) Chronology; (2) Placewise Index; (3) General Index; (4) Statement of Fasts; (5) Statement of Imprisonments; (6) Bibliography (Source Index).

1. *Chronology*: It mentions from day to day the place where he was; the work, chiefly public and at times private, that he did; the persons he met; the meetings he attended; the institutions he visited etc. Footnotes are given to indicate (a) variations in the information available in different sources and (b) concurrent events of importance etc.

Whenever I found that the information available in one source is different from what is available in another source or sources, I have relied upon that which is available in the majority of the sources. Sometimes I referred to the author or the editor of the book for clarification. Some of these references brought replies—and I have taken special note of them. In other cases I have used my discretion.

Wherever I am definite that there has been an error, I have made the remark: 'this does not fit in' or 'this seems to be an error'; but where I have not been able to verify whether I or the author or editor, as the case may be, is right, I have merely indicated the source which gives the information.

In some cases, where I have not been able to arrive at an exact date, I have accepted one of the dates, with the remark, 'perhaps a day earlier or later'.

2. *Placewise Index*: This is prepared from the Chronology and is a classified statement of the place or places (i.e. city, town or village etc.) where he was on a particular date. The number of places visited by him exceed 2000. Sometimes he was 'on way' also. Once the location is fixed further details can be had from the Chronology.

The scheme of arrangement is that if on a particular date he was at more than one place the date is given under each one of the places. But under 'on way' are given only those dates which were completely—i.e. from midnight to midnight—spent in travelling. Thus, if on the 1st he came to a place P, stayed there during the day, left in the evening and reached Q, stayed there for some hours and left again on the same day and reached R on the 3rd morning: according to the scheme of classification, on the 1st he would be at P and Q, on the 2nd he would be 'on way' and on the 3rd he would be at R. If, however, he reached R on the 2nd, there would be no date shown against 'on way'.

In this index, against the name of each place are given the names of the province (in capitals) and the district. When I could not determine the district, I have resorted to the postal circle and if even that was not available I have mentioned in the footnote the probable district. But such cases are rare. Whenever the name of the district is the same as that of the place, the name of the district is dropped. On the other hand in one or two cases it is found that there are two places bearing the same name in the same district and in the same province. In their case the name of the Taluka also is given.

It may be mentioned here that there are 32 cases in which two places bear the same name and four cases in which three places bear the same name. They are however not in the same province or district.

For fixing locations I have depended upon maps, gazetteers, railway guides, postal guides, travelling guides etc.

In this connection a point is worth mentioning. Almost the whole period covered by the book relates to the days when India was under British rule. The British Government had already changed names of many places and renamed them as Calcutta, Calicut, Bezwada, Benares, Broach etc. The sources from which the information contained in this book is collected give these names. After independence, Government have changed the names of many places, especially in South India. Mayavaram is now Mayuram, Trichinopoly is Tiruchirapalli, Calicut is Kozhikode, Ramnad is Ramanathapuram, Coconada is Kakinada, Benares is Varanasi and so on. The present postal guide gives these new names. I have found it very difficult, therefore, to locate some of the out-of-the-way places (and Gandhiji visited many such places) bearing old i.e. pre-independence names. Some of these places do, however, have a post-office. I should, therefore, like to repeat a suggestion I have made earlier, namely, that the Postal Department or the Department of Information and Broadcasting should issue a booklet giving comparative names, old and new, to facilitate the work of a research student.

A comparative statement of such places is given in Appendix II.

3. *General Index*: This also is prepared from the Chronology. It is a classified statement giving dates under various heads. These are: (1) persons or governments (i.e. representatives of governments) Gandhiji met or who are referred to in the Chronology; (2) names of residences or institutions where he stayed, e.g. Servants of India Society, Anavil Ashram, Morarjee Castle etc.; (3) certain special incidents that occurred in his life, e.g. accidents, attacks, dietetic experiments, losses or thefts, appreciations, types of people he met, various bodies whose meetings he attended (e.g. the Congress, the All India Spinners Association, the All India Village Industries Association, the All Parties Conference, the Muslim League, the Khilafat Committee); (4) some concurrent occurrences; and (5) such other information of interest.

The scheme of arrangement is that information regarding names of individuals is given separately per individual, except in the case of persons representing a government. These latter are grouped under the particular government they represented, e.g. Government of India, Government of Bombay, British Government, Government of Mysore etc. But whenever the head of a government is specifically mentioned, e.g. the Viceroy, the Governor of Bombay etc., information is given separately for each of them.

Another point worth mentioning is that only the date of arrival at a particular residence or institution is given under it and not all the days he stayed there. It is presumed that he stayed there till he left the place. If, however, he did change the residence in the same place it is so mentioned specifically.

Under some names of individuals posthumous information also is given. For example, a fund might have been raised and Gandhiji might have been busy collecting the fund; a memorial might have been erected, a portrait of the deceased might have been put up and Gandhiji might have performed their uneviling ceremonies; or he might have presided over meetings mourning the death anniversaries of certain individuals.

The total number of heads under which the information is classified exceed eleven hundred.

4. *Statement of Imprisonments*: This statement shows the periods spent by Gandhiji in the custody of government. This may be in one jail or another: and once it was in a running railway carriage.

In calculating the period, both the days—the day of arrest and of release are included.

5. *Statement of Fasts*: This statement shows the duration of and the reason for undertaking the fasts.

Gandhiji went on fasts many times. They were of varying durations and for varying reasons. Sometimes they were to obtain a change of heart among conflicting parties, sometimes to get grievances—his as well as others’—redressed; sometimes to pacify his own soul; sometimes to atone for the sins of others.

The fasts were undertaken both inside and outside jail.

Most of the fasts are known to the public; but there are a few which, I think, are not. I have tried to collect information of as many fasts as possible, but even then I cannot say that the statement is complete.

In calculating the period of a fast, the day the fast commenced is included but not the day it ended.

6. *Bibliography (Source Index)*: This comprises the sources from which the material of the Chronology is collected. It includes various newspapers, periodicals, police records, unpublished letters and diaries and over 250 books—all in Gujarati, Hindi, Marathi or English. Against the name of each book are given the name of the author (or of the publisher, if that of the author is not available) and the year of the edition.

A serial number is given to the names of books included in the bibliography. This appears as source number in the footnotes to the Chronology.

It has been found that there are misprints in some of the sources mentioned above. Misprints in newspapers and periodicals can be easily detected and rectified, but not those—especially of dates and places—in unpublished and sometimes, in published letters written to or by Gandhiji. Much depends upon the person to whom or by whom the letter was written and the contents of the letter; and even then the misprint or the mis-statement might not be clarifiable. Some of these letters have been cited by me in my essay in Gujarati submitted to the Gujarati Sahitya Parishad (Gujarati Literary Conference), held in Bombay in December 1963. The essay also deals with the methods I have adopted in preparing the Chronology, the sources available and the precautions that should be taken in sifting the material. It was published along with the report of the Conference and also in the May 1964 issue of *Swadhyaya*, a journal in Gujarati of the M.S. University of Baroda.

Throughout the period covered by the book, Gandhiji lived in India, except for the period when he went to England to attend the Second Round Table Conference and for short periods when he visited Burma and Ceylon.

The total number of days—i.e. from 9.1.1915 to 30.1.1948—comes to 12,075. Out of these I have been able to collect definite information for 11,739 days. Of the remaining 336 days, for 124 days I have depended upon circumstantial evidence to indicate the place where he probably was during those days. Such places are shown in rectangular brackets in the Chronology. For the remaining 212 days no information is available and I have merely conjectured as to where he must have been during these days. Such days relate chiefly to the earlier period when he was not as public a figure as in the later period and hence his movements and engagements were not covered by newspapers and books. Such places are shown in semi-circular brackets in the Chronology.

Such bracketing is in the Chronology section only. In the Index sections there is no such distinction and all are grouped under the same period.

This book is not a history; it is merely a Chronology—though sometimes opinions are expressed in footnotes. But these are few and far between. The intention of the book is to put before the reader complete and correct facts, in undistorted versions, to enable him to form his own opinion of the incidents and the individuals and draw his own conclusions. It is wholly a reference book to enable research students to locate dates, incidents and persons relating to Gandhiji.

While travelling, the conveyances used by Gandhiji were of varied types, apart from walking, which he did for days together, the outstanding examples being the march to Dandi in March-April 1930, and in the districts of Noakhali and Tipperah from November 1946 to February 1947. He rode on horses, elephants, camels, bullock-carts, bullock-carriages, horse-carriages, bicycles (only once in India), country boats, steamers, railway carriages, motor cars etc. and sometimes, unwillingly, on the hand-rikshaw and palanquin. As far as I could gather, he never travelled by air, though such travel did come into vogue during his lifetime.

Of the 12,075 days, about 4,739 days were spent in Ahmedabad (chiefly in Sabarmati and Kochrab) and Wardha (chiefly in Wardha and Sevagram) where his Ashrams are situated, and 2,119 were spent in government custody. The remaining 5,217 days were spent in travelling, in various parts of India and England, Ceylon and Burma, attending meetings and conferences and in illness and convalescence outside the Ashrams.

As far as possible the events are narrated in their sequence, but it is not claimed that all the events that took place on a particular day occurred in the exact order in which they are mentioned in the Chronology; for it is only in a few of the sources that his movements have been narrated from hour to hour.

It is not claimed that for each day the information given in the book is wholly complete. From the Placewise Index it will be seen that he visited over 2,000 places, but there may be many more which are not included in the Chronology.

Further it is not claimed that on a particular day there were no other activities than those mentioned in the Chronology. Wherever he went, usually meetings were held and addresses were presented to him and he addressed the gatherings. Also people came to meet him and to discuss with him; or there were various places and persons he visited. It has not been possible to take note of all of them.

Again, a person like Mahadev Desai, his secretary, was too near Gandhiji to require any specific mention. He was with him on most of his tours, and stayed with him at the Ashrams. His work required his constant presence. Hence his name does not appear as frequently as the names of others do.

For the information given in the Chronology absolute accuracy cannot be claimed. Very little of the information given is from my personal knowledge. For almost the whole of it I have depended upon the sources mentioned in the Bibliography. Wherever the information was conflicting, I have tried to find out the facts by consulting the then current literature or, if possible, by approaching the person concerned. Where a doubt persisted, I have put a question mark.

Since almost the whole period of the Chronology pertains to pre-Independence days, the names of places and districts—except in a few cases—are of those days. Names and boundaries of provinces also are of those days. I have however, classified Gujarat, Cutch, Kathiawar and Bombay separately. Similarly names of some of the Native States are given as they were then: e.g. Mysore, Cochin, Travancore, Kashmir etc; and similarly French possessions are shown as such.

A statement showing the portions of India included in Pakistan is given in Appendix I.

In the body of the book there are various abbreviations. A statement showing the equivalents of these abbreviations is given.

I am not a student either of history or politics or religion. It was only by an unforeseen but fortunate turn of fate that, after I retired from municipal service, I came in contact with Gandhiji's correspondence and the idea occurred to

me to collect the material which is now before the reader in the shape of this Chronology.

The work has taken me over nine years and it was done in my off-duty time. To collect the material I have ransacked the records of the Gandhi Smarak Sangrahalaya, Sabarmati, and consulted libraries and newspapers in Ahmedabad, Nadiad, Surat, Bombay, Poona, Madras, Calcutta and Patna.

Correct dates and a true and unbiassed narration of facts are important in the study of a nation's history and of a personality. It is necessary, therefore, that whatever material is available today should be collected and preserved, lest it should be lost and the work of a researcher made difficult, if not impossible. This has been the guiding motive in preparing this Chronology.

The material, as stated above, is collected from various sources. I am extremely thankful to the directors, editors, publishers, etc. of all these sources; to the Government of Maharashtra; to the managements of libraries at Ahmedabad, Bombay, Calcutta, Patna etc.; and also to the various persons and institutions who replied to my queries. Special mention should be made of the management of the Gandhi Smarak Sangrahalaya, Sabarmati whose help and inspiration have been of immense value to me. I have no hesitation in stating that but for the willing cooperation of all these persons and institutions I would not have been able to collect as much material as I have been able to include in the book.

Moreover he did not go to Poona before 7.2.1915. On 14th he did visit Servants of India Society in Bombay. On 15th Gokhale came to Bombay and at that time MKG met him. There was no necessity for him to go to Poona to meet Gokhale.

But on this date there was the inaugural address by the Viceroy; and usually there is no other lecture on that day. This does not fit in as agreement itself was executed on 31.5.1917. These words would mean that negotiations were going on or finalised in 1916.

1. Acc: to 'Kathiawad Times' 21.7.18, MKG said "I have sent my eldest son, who is a married man and has five children, to take part in defence of the country". In 'Prajabandhu' 21.7.18 there is a similar report. But in the list of enrolled persons printed in issue of 30.6.1918 the name of Harilal (MKG's eldest son) is not found. Moreover father and son were estranged since about seven years. In a letter (28.7.18) MKG had stated that he had advised Harilal to join, but how can he now do any such thing? The report quoted above does not seem to be correct.

1. Those Congressmen who attended this conference did so in their individual capacity and not as party members.

2. Information about date 27 and 28, in part 2 of Source No. 185 is conflicting. On p. 299 it states that MKG was in Ashram till 28th; on page 302, it states that he left Ashram on 27th for Bardoli; on p. 325, it states that on 28th Ashram inmates saw him and asked for guidance re: future programme; and on p. 327 it states that he left Ashram on 26th. This last statement alone seems to be correct. In annotated and abridged edition (of this book by Richard Gregg) also, there is same confusion vide pp. 189, 192, 207 and 208.

3. In a village called Chauri Chaura in Gorakhpur Jilla of U.P., people burned police stations, killed policemen and behaved inhumanly.

1. Those congressmen who were disheartened by Working Committee's decision (11.2.1922) to stop satyagraha because of Chauri Chaura, wanted to change programme and take some 'effective' measures. A party led by C.R. Das and Motilal Nehru favoured entry into legislatures. At Congress in Gaya (1922) (Pres. Das) it was proposed by Motilal Nehru that boycott against legislatures be lifted, but proposal was lost. Das resigned. A Swaraj Party was formed. It accepted aims and objects of Congress and decided that for wrecking new constitution, legislatures be captured. The special session of Congress that met in September of 1923, permitted those who believed in it, to do so. They secured many seats in elections (November). But this resulted in formation of groups: No-changers and Swarajists.

He had insisted on the inquiry about disputes re: land at Bardoli and other districts, but found it possible in respect of Bardoli lands only, and the other demand had to be dropped. Not only that but he had to remain satisfied only with an assurance that Government would make an impartial inquiry. He had also to accept the position that till he returned from England the Congress must observe the Gandhi-Irwin pact whether Government did it or not; and must not think about restarting the struggle.

The sole aim in accepting this position was to save the Congress from the stigma of breaking the pact. The late Zaverchand Meghani compared this second pact as the Last Bowl of Poison.

Whatever may be the reason, he cancelled all such visits. It may be that the seriousness of the situation in India might have forced him to do so.

They then argued 'You were arrested when you were at their's and when you will be rearrested (for, as all others were in jail Gandhiji was upset and it was likely that he would court jail) that also would be at their's. This will endanger safety of the Birla family.' Gandhiji wrote this letter after that.
